For university preparation we have students from all over Europe. Lessons are mainly given on a grand piano. By using modern keyboards and playalongs, you can prepare yourself for playing with a band (later in different ensembles). Themes like, voicing, ear training, harmony, scale theory, improvisation, arrangement and composition can be integrated into the piano lessons or be taken separately as a course.

The school offers all resources of a modern music school: from a rehearsal room with PA & drum set, to a digital recording studio. The MODERN PIANO SCHOOL is directed by Axel Kemper-Moll who is bestselling author of piano books, look at the youtube-video, as well as an accomplished performer, arranger and composer.
